### NOTES:

Above is the ideal set up for our show. We can work with less D.I. boxes (a minimum of 3) if necessary as bass provides own D.I. box. Monitoring can also be reconfigured to suit venue. Please advise of any changes before load in.

Lighting wise the show is rock and roll comedy, so please set up as for a standard rock gig.

You can address any technical questions to Shane (Shane@deadcatbounce.ie).

Thanks and we look forward to seeing you in your venue.
